

# HOW TO APPLY FOR IHI SUPERIOR

## COMPLETING THE APPLICATION

All you have to do is complete one Application Form per family and a Medical Questionnaire for each family member.

Please list the full details of your medical history along with any pre-existing conditions you may have and enclose relevant supporting documents from physicians and specialists.

The completed forms should be sent to our local representative or directly to our head office. Once your application is accepted, we will issue the policy schedule.

## CHILDREN

Children under the age of ten can be insured free of charge if the requirements for acceptance set out in our standard terms are met (cf. Art. 1.2). A maximum of two children can be insured free of charge per paying adult, and a total of four children can be insured free of charge per policy.

Once the maternity waiting period of ten months is over, newborn babies are automatically covered irrespective of their state of health at birth. IHI will need to be informed of the sex, name and date of birth of the baby within three months.

An application must be submitted for children born within ten months from the commencement of the policy.

When the child becomes an adult, he or she can continue to be insured on a separate policy under the exact same conditions, without having to undergo new medical underwriting.

## PRE-EXISTING CONDITIONS

If you have a pre-existing condition, you may still be eligible for insurance. Our medical consultants will determine whether a previous illness or medical condition warrants a surcharge or an exclusion, or if the insurance can be obtained on standard terms.
